**Printed name**

---

**Member #**

*This absentee ballot must be signed by the stockholding member in good standing, the member name must be printed legibly and the Club # must be inserted. The ballot may be cast by either:  
Depositing it in a designated voting ballot receptacle at the club before the annual meeting,  
by fax to 252.726-6666 no later than noon on the date of the annual meeting or scan and email back to  
[moreheadcitycountryclub@gmail.com](mailto:moreheadcitycountryclub@gmail.com) no later than noon on the date of the annual meeting.*

*Ballots not signed and filed in completely, including printed name and club # or duplicate ballots may be voided by the Elections committee*

**Pace of Play Guidelines**

**3:45 Minutes**

Time adjusted for cart path only days

**Group rights:** As long as groups are within the pace of play guideline and within one hole of the next group they are not required to let players through. Anytime a group falls a hole or more behind they are obligated to close the gap or let quicker players through.

**Pace of Play Suggestions:**

With the course renovation please come in after the 8<sup>th</sup> hole to use the bar and grille. Additionally you may want to call your food and drink order in before going to the 8<sup>th</sup> tee. Plan your shot while riding to your ball, or while others are playing. Be ready when it is your turn. Go directly to your ball and don't follow others unless assisting in a search. When on paths only, take several clubs with you to your ball. Be efficient with pre-shot routine. Leave your clubs on the side of the putting green towards the next tee.

The table below is a suggestion on tees of play by tee shot distance and or by handicap. Combination tees will also be available for increased playing options. For competitions the championship tees will be the black tees. Standard men tee ages under 65, blue tees. Men 65 to 80, white tees. Men over 80, gold tees. Women under 65, gold tees. Women over 65 red tees. Women over 80 and juniors under 13 forward tees.

Driving Distance	Suggested tees of play by driving distance	Suggested tees of play by handicap
Over 250 yards	Black	Handicap 5 or under
225-250	Blue	10 or under
200-224	White	Men 11 to 20
175-199	Gold	Men over 20 Ladies under 20
150-174	Red	Ladies 20 to 30
Under 150	Family Tees	Ladies Over 30

**COURSE RULES**

**VIOLATION OF RULES:** 1st Offense Verbal & written notice  
2nd Offense Written notice & referred to Board of Directors

1. Golfers must check in the golf shop. All play is to start on the #1 tee unless otherwise directed by the starter. Each day the back nine will be opened 2 hours after the first 18-hole tee time to allow the maintenance crew to complete daily maintenance.
- 2.. Fivesomes are not allowed until after 2:00. All twosomes before 2:00 may be paired with a single or another twosome.
3. All golfers are to abide by suggestions and request of golf shop staff.
4. Golf course and driving range attire effective October 20th

**Policy:** The golf course dress code applies to the putting green, driving range, practice areas and golf shop. It is a members responsibility to inform their guest of this policy prior to their visit to the Morehead City Country Club. Youth golfers must comply with the dress codes for their gender.

**Golf Course Attire for Men:**

-Men shall be required to wear a polo shirt with a collar or any stylish golf shirt sold in the golf shop. It is strongly recommended that golf shirts be tucked in at all times. Tank tops, t-shirts, swimming pool or tennis attire are considered inappropriate.  
-Shorts must be no shorter than mid-thigh in length and must not be ragged or torn. No athletic shorts are allowed on golf course.  
-Long pants must not be ragged or torn. Denim is not allowed.  
-Golf shoes with metal spikes are prohibited

**Golf Course Attire for Women:**

-Women shall be required to wear a polo shirt with collar or any stylish golf shirt sold in the golf shop. Tank tops, bare midriffs, t-shirts, swimming pool or tennis attire are considered inappropriate.  
-Shorts must be mid-thigh in length and no more than five inches above the knee. Spandex, yoga pants, running tights or similar items may only be worn under shorts, skorts, or golf dresses.  
-Denim is not allowed.  
-Golf shoes with metal spikes are prohibited

5. Ballmarks are to be properly repaired with a ballmark tool. Ballmarks, divots and footprints in bunkers should be raked to a level surface and the rake is to be left in the bunker. Fairway and tee box divots should be filled with the sand provided.
6. All player must have an individual set of clubs.
7. No child under 12 may play without an adult unless approved by Pro Shop staff. All operators of golf carts must be at least 16 years old.
8. Carts are to use the 90 degree rule unless instructed otherwise by Pro Shop staff. Cart path means cart path only for all carts. All carts must exit to the cart path at or before the sign located in the fairway. Golf carts must remain on the cart path around all greens, teeing grounds and all par 3's. Only two people and two golf bags are allowed on a cart. Two single rider carts are not allowed in any group except that a private cart owner-driver is not required to ride with another cart owner-driver.
9. Pull carts must be kept off of mounds, away from bunkers and 15 feet from greens and tee boxes. Pull or push carts will be required to stay on the cart paths on days the golf course is deemed too wet.
11. Handicap privileges allow golfers to be no closer than 15 feet from greens and tee boxes. These privileges do not extend to another cart occupant unless he or she is also handicapped. Only carts with handicap privileges are allowed in practice areas.
12. Carry bags must be kept off fringes and greens
13. Any person bringing pets or animals to the golf course or Club property will be held responsible for damage inflicted and the cost of repairing such damage.
14. NO GENERAL ABUSE TO THE OVERALL FACILITY

**PROCEDURE:** All the above rules are to be followed by anyone using the grounds. Anyone observing a violation should report the violation

**TEE IT FORWARD** By USGA Introduced in 2011, *TEE IT FORWARD* is a joint initiative between the USGA and The PGA of America that encourages players to play from a set of tees best suited to their driving distance. In addition to providing more enjoyment for golfers, teeing it forward also can be one of the most important steps that golfers take in improving pace of play. A 2012 survey of *TEE IT FORWARD* participants found that: 56 percent played faster, 56 percent are likely to play golf more often 83 percent hit more-lofted clubs into greens, 85 percent had more fun 93 percent will *TEE IT FORWARD* again

**More from the USGA:** One question that arises is, "Will my Handicap Index® still be portable from a forward tee?" When posting a score from a more forward set of tees, for example, that set of tees will have Ratings that are in accordance with a shorter total yardage (e.g., a 6,500-yard set of tees may have a men's USGA Course Rating of 71.0/Slope Rating of 120, whereas a 5,500-yard set of tees for men may be rated 66.0/110; a 5,500-yard set of tees may have a women's rating of 71.4/114, whereas a 4,500-yard set of tees for women may be rated 65.8/101). The player's total score is usually going to be lower by playing a shorter set of tees, but the ratings are going to be lower, respectively, to compensate for the difference. Thus, the Handicap Index and Handicap Differential™ produced from each round played should be about the same and keep a Handicap Index portable from tee to tee, course to course.

# October Schedule of Events

## Wednesday, October 11<sup>th</sup>

Sunset dinner ~ Crab Cakes (6-8:30)  
complimentary bingo (6-7)

## Thursday, October 12<sup>th</sup>

Pizza & wing night (6-8:30)

## Friday, October 13<sup>th</sup>

Dinner & a show  
Magician Joel Givens

9-Hole shootout (4:00)

## Thursday, October 26<sup>th</sup>

Pizza & wing night (6-8:30)

## Sunday, October 29<sup>th</sup>

Tee it up for High School  
Golf Fundraiser  
Shotgun start 10:30

## Doug Creech

My name is Doug Creech. My wife, Joyce and I have been active golfing and social members of Morehead City Country Club for over 25 years. I have had the honor of serving on the board during trying economic times yet we were still able to pay our debt down to the could manage the present golf course re-design, pool replacement and building of a new club house. This has been done without raising current member dues. We are at a crucial time completing needed improvements. I would sincerely like to be a member of the next board so we can see this project completed in a timely manner without raising dues or having assessments. I would greatly appreciate your vote.

If elected, I will be available to the membership because I feel the members and employees are the most important part of our club. Your ideas and suggestions will always be welcome. Thank-you for your vote.

## Rob Watson

I have been a member of MCC for 25 years, now serving my fourth term on the board holding past positions of Vice President and Financial Chairman. I have been a part of and witnessed the upward trend over the years that have led us to the current course renovation as well as the upcoming pool and clubhouse projects. I know the sacrifices and commitment it takes as an individual as well as working as a team with my fellow board members in making the best possible decisions for our members and continued success of our club. I still feel the need to serve to see the current transition to its completion over the next three years. The membership has exploded over the past few months – I feel it is in our best interest as a club to keep a solid foundation of experience on the board to take care of this growth. I pride myself in engaging in as many conversations as possible with our expanded membership we are so fortunate to have. Sharing their ideas and concerns with the board to insure that the entire membership is as fairly represented and heard as possible. I look forward to meeting many more of you over the next few weeks leading up to the election and would continue this practice if elected again to the board. These are exciting times and I am equally as excited and would be honored and privileged to serve another term as your director.

## Dick Weir

My background, personal and professional history

My name is Dick Weir and I would be honored to represent you by becoming a new member of the MCCC Board of Directors. If you don't know me, I am the one with braces on both legs from a year long battle with and paralysis from polio at age 6, plus dozens of leg surgeries over the years. But I still love and do play golf!

My beautiful wife of 46 years, Anita, and I moved her 5 years ago after living for 32 years in Atlanta to join our daughter Laura and husband Patrick when they moved here 7 years ago to become owners of the chick fila in Morehead City; they are also club members. We have a wonderful grandson Caleb, age 9, and granddaughter Reagan, age 6.

Polio initially paralyzed me and doctors said I would spend my life in a wheelchair but I beat all the odds and took my first steps a year later. I then played on both my high school and college golf teams. In later years I served as President of the Atlanta Post - Polio Association for 5 years, serving others like me dealing with the "after effects" of childhood polio. I served as Vice President of the 500 member Atlanta Advertising Club for several years, started and was President for of a group we named ORFUN, for Orphans Really Feel Us Now. We developed many programs over the years to make the lives a little better for orphans, foster and abandoned children. I also served years on the Board of the Men's Golf Association at Indian Hills Country Club in Atlanta. We ran both the Member-Member and Member-Guest Programs. The club had 27 holes and over 900 golfing members, so we had around 125 members playing in each tournament over 3 days. They were major events.

Professionally, I earned a BA in Accounting, followed by my MBA at the University of Illinois (my home state). I first worked in Marketing Consulting for Ernst & Whinney in Chicago, then moved to New York City for several years, first as a Marketing Manager for Sunshine Biscuits, then became the Marketing Director and AVP for a major division of Citicorp. I later moved to Atlanta, where I opened and ran my own Advertising and Marketing Communications Agency for 15 years. We mostly served major corporations, including Mobil Oil Corp., Planters Peanuts, Coca-Cola, and numerous others. I then merged my firm with a larger agency, and after several years there I left to become one of 4 stockholders in an Atlanta based firm that provided tuxedo rentals. As Sr. VP of Sales, Advertising and Marketing, we built the firm from 100 to almost 300 retail stores, tripled our wholesale business, and eventually sold the firm to a New York based venture capital firm. I then retired.

To become better informed and be more involved with the work our Board does, I chose to attend every monthly Board meeting since February of this year. The Board also added a bi-monthly meeting to its calendar this year given everything involved with the course redevelopment and planning for both a new pool and new clubhouse. I have also attended all those meetings except one.

I would be honored to put my business and communications skills to work for you as a new Board Member. Our aggressive redevelopment plan give us even more to offer to both current and prospective members. I look forward to helping to further build our club. Thank you for your consideration.

# November Schedule of Events

## Wednesday, November 1<sup>st</sup>

Sunset dinner ~ Prime Rib (6-8:30)  
complimentary bingo (6-7)

## Thursday, November 2<sup>nd</sup>

Pizza & wing night (6-8:30)

Sunset dinner ~ Shrimp & Grits (6-8:30)  
complimentary bingo (6-7)

## Thursday, November 30<sup>th</sup>

Pizza & wing night (6-8:30)

## Martin Sceeny

I am originally from Winsor, England and moved to the United States in 1986. I became a US citizen in 2004. The company that I worked for in England, LinPac Plastics, purchased two manufacturing plants in Wilson, NC and Sebring, FL and I relocated to the Wilson plant. With my Cost & Management accounting certification I served in the capacity of Financial Controller for the United States, South America and China for 26 years. My duties included budgeting, forecasting, cash control and supervision of all computer systems and controls.

I met and married my wife, Dana, in Wilson, NC. During my career with LinPac Plastics, we were relocated to Hollywood, Florida and Aurora Ohio. Upon my retirement, we returned to eastern NC and currently live in Morehead City. Dana is employed by Carteret Health Care.

I became a member of The Morehead City Country Club in 2012 and have enjoyed playing with the HotDoggies group up to three times a week. I am excited about the improvements to the golf course currently underway and look forward to playing the new course soon.

Dana and I have enjoyed the increased social events and functions offered by Morehead City Country Club. We hope that with the increased club membership we will see continuing improvements and participation for future events.

While I commend the current Board's actions and motivation, I feel that my considerable financial expertise will enable me to be a competent and productive Board member.

## Joyce A Olsen

Let me first say that we are almost through an amazing renovation of our golf course. It is so exciting and will truly make Morehead City Country Club the best golf course in eastern NC. Our next major challenge of the pool, clubhouse, and renovation of the existing clubhouse into a workout facility will take a very active and decisive board. Correct decisions need to be made for each area to accomplish a showcase facility and to continue to cater to each member - young and old. I feel I can make a difference and am qualified to be a contributing member of the Board of Directors.

Vic and I moved to Morehead City six years ago from Miami, FL. We have now made Morehead City our home, and hope to remain in the area for many years to come.

I was born and raised in Muncie, IN and graduated from Ball State University with a BS degree in Business Education, Sociology and Physical Education & Coaching. I also have a MA degree in Business. After finishing my Masters Degree I entered the outside world of sales. After spending many years working for other people (including the sales, marketing and development of John Deere Golf and Turf Equipment in Indianapolis), Vic and I opened our own Advertising Agency in Indianapolis, IN. For many years we worked with a variety of companies and private schools around the country helping with their advertising and marketing needs. After 15 years, we moved to Miami and founded Miami Soda Blasters and Two Bunch Charters. When we sold Miami Soda Blasters in 2011 we moved to Morehead City to get closer to our children and grandchildren who reside in Raleigh. I currently work as an independent account manager for SkyBank Financial which is in the merchant services industry.

My past background in and around the golf industry includes membership in two different country clubs in Muncie, IN where I played, help organize and participate in a very extensive junior golf program for five year olds up to high school age, member and past president of the LGA, played in two travel leagues, played in state amateur for several years and Muncie City Champion in 1982. Then work got in the way, two children to raise and Vic came into my life. We got into boating and offshore fishing so I retired from Golf until five years ago. That is when I found Morehead City Country Club and so happy to be a part of it!

Currently at MCCC I am an active member of the LGA, a member of the DEWGA (Down East Women's Golf Association) traveling league, participate in most major MCCC golf tournaments, play in the Wednesday night Shootouts followed by dinner, utilize the Thursday clinics, par take in most Thirsty Thursdays and attend most social events. I am a very active member with the Club.

MCCC is continuing to grow and change. I want to be a part of the solution process through open and objective communication with Club members and the Board. I truly feel my education, career, and country club experience well qualifies me to serve on the Board of Directors of Morehead City Country Club. I would be honored to be selected as a Board Member, and serve the Club to the best of my abilities. Thank you for your consideration.

# December Schedule of Events

**Saturday, December 2<sup>nd</sup>**

Dinner & a show  
Blue Moon Jazz  
Featuring Lewis n Clark

**Wednesday, December 6<sup>th</sup>**

Sunset dinner ~ Crab Cakes (6-8:30)  
complimentary bingo (6-7)

**Thursday, December 7<sup>th</sup>**

Pizza & wing night (6-8:30)

Pizza & wing night (6-8:30)

**Monday, January 1<sup>st</sup>**

Complimentary  
New Years Day Brunch  
Members bring your friends!  
(10-2)

## Elwyn Wood

My name is Elwyn Wood and I have been a member of the club for 8 years, served on the Board for the last 3 years and as the Treasurer for 2 years. I am married to my wife Molly and we have 2 children and 4 grandchildren. I have a BSME from NCSU and a MBA from the College of William and Mary. During my career I have worked in the design of nuclear submarines, purchasing and contracting, facilities construction and maintenance and auditing. I have held several management positions in these fields. For example I managed the purchasing and contracting for Progress Energy ( now Duke Power ) which amounted to \$2 billion annually. For the last 8 years at Progress Energy I was the VP of Internal Audit. In this department we conducted audits in information technology, operations, finance and accounting, safety and environmental. I am excited about the renovation of the course and the new pool. This has been a challenge for the board to manage the scope and cost of the projects. Our next challenge is to design, finance and build a new club house. This is both exciting and daunting. I think I have the skills and experience to assist the board in managing the projects and club.

## Bert Pearce

Fellow members, my name is Bert Pearce and I'm a candidate for the Board of Directors at Morehead City Country Club. This is a very exciting time for our club and with our vote, I would love to help shape and guide the growth of MCCC over the next three years. I truly fell that we have the potential to have not only one of the nicest country clubs on the Crystal Coast but also in the whole state of North Carolina. The golf course is coming along beautifully and it will be a scenic and exciting new challenge for golfers of all skill levels. In the near future, construction of a new swimming pool will begin, and hopefully in the not-too-distant future we will have a new clubhouse with beautiful views that will serve the needs of our growing membership. All of these projects need careful planning and oversight. We need to be fiscally responsible in our growth, but also have the foresight to try and served the needs of our members not only in the next 3 to 5 years, but in the next 10 to 20 years as well. The potential for our club is unlimited, which is already evidenced by the amazing membership growth even with the course closed.

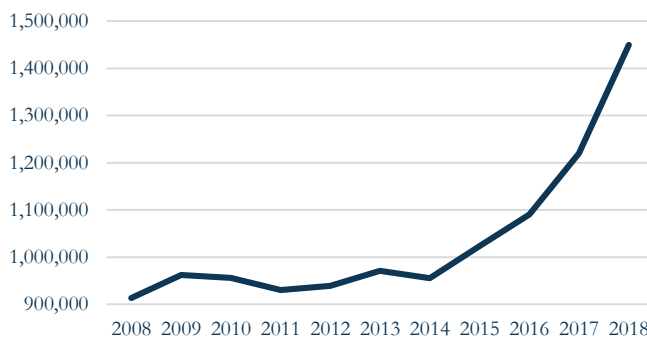

I feel like I have a business and leadership background that can help shape and guide the growth of our club over the next several years. My wife, Laura, and I have lived in Morehead City for 27 years and I have owned a periodontal dental practice in Morehead City since 1990. During that time I have served as President of the NC Fifth District Dental Society, the North Carolina Society of Periodontists, the Carteret County Dental Society and Soundview Rotary of Carteret County. I also served a three-year term on the board of the Dunes Club, during which time a new clubhouse was planned and built. I have also been a member of Morehead City Country Club since 1991.

I would greatly appreciate your vote to serve on the Board of Directors. If elected, I will do my best to represent the members of our club and to work with my fellow board members and club staff to shape and guide our club over the next 3 years. Thank you.

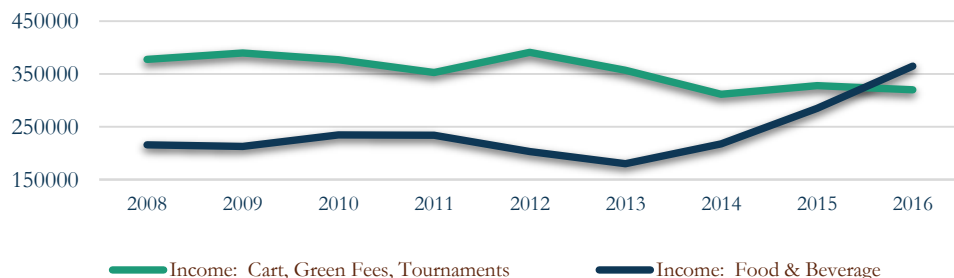

## DID YOU KNOW...

- If the membership stays at the current number dues and initiation will be \$500,000 higher in 2018 than in 2014!
- 2016 was the first time food and beverage sales were higher than income from rounds of golf?

## Dues & Initiation Income

## Day to Day Income Trends

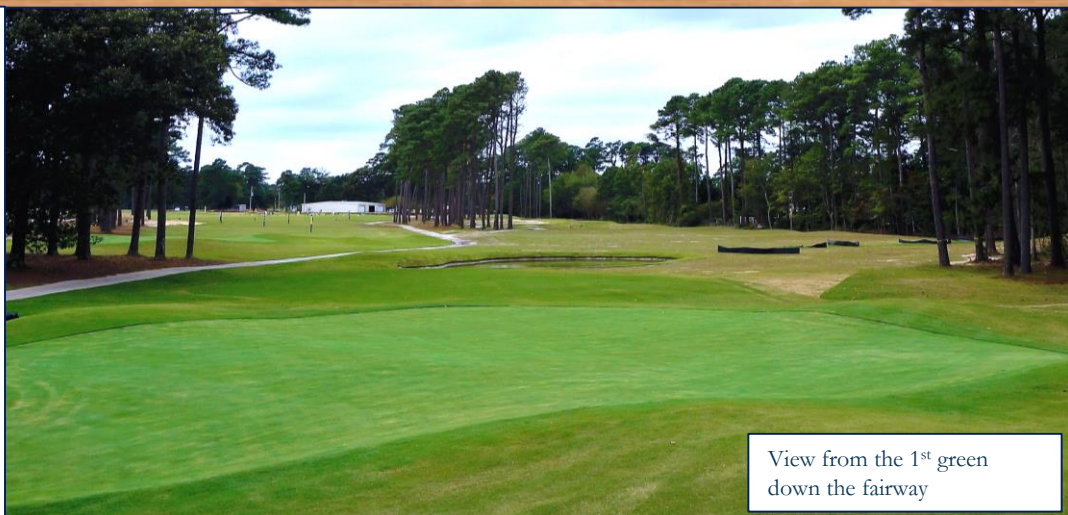

Course detail: There will be a family tee placed ahead of the red tees. Yardages have not been finalized.

#1 Par 4	Black	Blue	White	Gold	Red
Handicap 10	445	375	330	285	240

Course begins with a medium length par 4 with a generous fairway. Tee shot to will need to land short of the pond located approximately 100 yards from the green. From the fairway you will have a direct shot to the green without having to challenge either of the bunkers guarding the left and right sides of the green. The 1<sup>st</sup> green is the old #2 green. Contouring has been softened, but approach shots will tend to filter to the left once on the green.

View from the 1<sup>st</sup> green  
down the fairway

#2 Par 3	Black	Blue	White	Gold	Red
Handicap 18	185	160	120	110	90

The 2<sup>nd</sup> hole is the old 5<sup>th</sup> hole. Those playing from the white & gold will find an expanded tee box to the left which allows players to run their ball onto the green. The green contour has been softened to allow more tee placements on the right portion of the green. The green has also been enlarged by up to 7 feet on the front left. The ledge towards the middle of the green will funnel shots to the left.

#3 Par 4	Black	Blue	White	Gold	Red
Handicap 16	335	310	295	270	215

The 3<sup>rd</sup> hole is the old 6<sup>th</sup> hole. This short par 4 provides multiple options off of the tee. The widest part of the fairway is roughly 100 yards from the green. Those attempting to drive closer to the green will not have to challenge 2 fairway bunkers on the left. The green has been slightly enlarged and the lip on the front of the green has been removed allowing players a better opportunity to run their ball onto the green.

#4 Par 4	Black	Blue	White	Gold	Red
Handicap 14	290	270	250	230	205

The 4<sup>th</sup> hole is the old 7<sup>th</sup> hole, the ultimate in risk reward hole. Expect #4 to play a variety of distances, as the tee box is nearly 100 yards in length. Trees have been removed and the fairway has been extended 15 yards to the left around the pond. A new waste area has been added to the left of the fairway. Challenge the pond off the tee and leave yourself an easier second shot. Play safe off the tee and you'll need to hit an accurate approach to avoid the pond.

#5 Par 5	Black	Blue	White	Gold	Red
Handicap 2	545	465	435	370	345

This long and challenging par 5 will play into the prevailing wind. The 5<sup>th</sup> is the old 3<sup>rd</sup> hole. Tee shots will need to avoid a new fairway bunker on the left. The old waste bunker is in the process of being grassed. 2 additional fairway bunkers have been placed short and to the right of the green. A new-elevated green has been located approximately 60 yards further back than the old 3<sup>rd</sup> green.

#6 Par 5	Black	Blue	White	Gold	Red
Handicap 4	540	475	425	390	350

The 6<sup>th</sup> hole is the old 4<sup>th</sup> hole. Changes include a new back tee. The pond has been extended slightly closer to the tee. The fairway has been widened around the pond. A large bunker located on the left of the green guards the green. A greenside bunker on the back of left of the green has been removed.

#7 Par 4	Black	Blue	White	Gold	Red
Handicap 6	455	375	325	285	245

The 7<sup>th</sup> hole is the old 8<sup>th</sup> hole. The easiest par 5 before the renovation now becomes arguably the most challenging par 4 of the new course. The fairway has been widened by nearly 30 yards. Tee shots will need to avoid a large fairway bunker on the right. Greenside bunkers have been repositioned to allow balls to roll up onto the green.

#8 Par 4	Black	Blue	White	Gold	Red
Handicap 8	410	360	320	280	255

The 8<sup>th</sup> is the old 9<sup>th</sup>. New tees and a new green make this hole play as an entirely new hole. The fairway has been elevated and is generous in the landing area. The new green is positioned to the left of a new lake and is backed by several large oaks. This is your first panoramic view of the Newport River. Approach shots must be precise as this green has some of the largest contours you'll find on the course. Make sure to not be above the hole when the flag is on the front.

#9 Par 3	Black	Blue	White	Gold	Red
Handicap 12	200	165	140	120	105

The 9<sup>th</sup> is a new picturesque par 3. The entire hole runs along the marsh of the Newport River. The prevailing wind will be into the players and blowing towards the river. A large green will help funnel balls to the right, especially towards a back right pin. A par on this hole will be a great score as this par 3 is rated as the toughest on the course.

#10 Par 4	Black	Blue	White	Gold	Red
Handicap 9	440	370	325	270	245

A natural fit! #10 looks as if it was always meant to be played this way. Your tee shot is framed by two of the largest oaks on the entire course.

The 10<sup>th</sup> is the old 11<sup>th</sup>. The tee placements are dramatically different. The new tee shots should be aimed either at the new fairway bunker or just to the left and favors a right to left shape. The green contours have been softened significantly to accommodate increased approach shot distances.

#11 Par 4	Black	Blue	White	Gold	Red
Handicap 11	355	330	300	270	240

The 11<sup>th</sup> is the old 12<sup>th</sup>. You will find a much wider driving area with the removal of the waste bunker and relocation of the cart path. Finding the fairway will be easier, however, players will want to favor the right side of the fairway. This new green has been moved to the left, bringing the pond in play. The green is setup for players to be able to run their ball onto the middle or right side of the green. Once the ball is on the green players will find the ball will want to release to the left. Those attempting to hit a shot close when the flag is positioned on the left players will be forced to challenge the pond.

#12 Par 4	Black	Blue	White	Gold	Red
Handicap 17	175	140	110	95	85

12<sup>th</sup> is old 13<sup>th</sup> . The shortest par 3 on the course is a great place to make a birdie.

#13 Par 5	Black	Blue	White	Gold	Red
Handicap 3	520	485	440	395	330

13<sup>th</sup> hole is the old 14<sup>th</sup>. The first fairway bunker on the right has been removed. The 2<sup>nd</sup> fairway bunker has been expanded and pinches the fairway for longer hitters. The pond in front of the green has been moved to the right to allow players the opportunity to run their ball onto the green. Bunkers now guard the green right and left. Green contours have been softened. The 13<sup>th</sup> should play slightly easier for shorter hitters than before and possibly harder for the longer hitters.

#14 Par 3	Black	Blue	White	Gold	Red
Handicap 15	190	170	140	135	115

14<sup>th</sup> hole is the old 15<sup>th</sup>. A new back tee stretches this par 3 to nearly 200 yards. The front left bunker has been reduced in size by nearly 50%. The back right bunker has been removed. The bunker to the right of the green has been split into 2 bunkers to allow each bunker a flat bottom. The back half of the green contours has been softened to allow more pin positions.

#15 Par 5	Black	Blue	White	Gold	Red
Handicap 5	510	490	445	390	350

#15 is old #16. Much like #13 new #15 should play slightly easier for shorter hitters and slightly harder for longer hitters. The fairway bunker on the right has been moved 35 yards further down the fairway. The pond in front of the green has been eliminated and made into fairway. A bunker has been positioned to shrink the bailout to the left of the green. Contours on the back of the green have been softened, allowing a number of new pin positions.

#16 Par 3	Black	Blue	White	Gold	Red
Handicap 13	180	150	120	95	80

This scenic new par 3 takes full advantage of Newport River views. The deepest green on the course is sloped from front to back. Don't let an easy front pin position full you. Front pin position is the toughest position of all on this green.

#17 Par 4	Black	Blue	White	Gold	Red
Handicap 7	440	385	320	285	250

Arguably the toughest par 4 on the course. Players are faced with needing to hit a right to left tee shot that will need to avoid the fairway bunker on the right. The green is much flatter on the back right slopes from back to front has been softened. The lip in front of the green has been removed.

#18 Par 5	Black	Blue	White	Gold	Red
Handicap 1	585	525	460	400	345

Saving the best for last! MCCC’s signature hole becomes even more of a risk reward finish. Those going for the green in 2 will cut off nearly 50 yards from the scorecard yardage. Ideally even if players are not going for the green in 2 they will want to clear the marsh in 2 shots. The further to the right of the green you go the shorter the carry is over the marsh. Those choosing to lay up short of the marsh will only be able to see half of the green. The 18<sup>th</sup> green is a large green sloping from back to front and right to left. The green is not only guarded by the marsh, but the largest bunker on the course .

### **Question and answer with Randy Wilson Course Architect**

Randy Wilson brings over 27 years of golf course design and construction experience. Having worked with Jack Nicklaus, Tom Fazio, Arnold Palmer, Pete Dye, Robert Trent Jones and Gary Player. In addition Randy was a golf professional for 10 years along with serving as a superintendent. Randy's design of Mirimichi Golf Club with entertainer Justin Timberlake has garnered many National Awards and has received the First ever Audubon Classic Sanctuary designation in the Northern Hemisphere. His partial project history includes work at such clubs as Augusta National, Pinehurst #2 and Pebble Beach. Read more about Randy Wilson below in FAQ.

### **First thoughts on seeing Morehead City Country Club?**

Before visiting I knew the club had a very strong membership. As strong a membership as you'll see for an 18 hole facility. I also knew there were some really great views of the Newport River. I'll have to say the first time seeing the course I felt the club had a tremendous opportunity to improve and maximize views of the Newport River. I spent several hours surveying the course before meeting with Nick Eatmon. Within just a few minutes I knew Nick and I would be on the same page with the project. We had very similar thoughts on what to do with the property, specifically the area around the 18th green. By moving the 18th green closer to the water and making a new par 3 9th hole on the water you not only create a more dynamic and memorable course you also provide a spot for the new clubhouse. A clubhouse that will have views of the 9th and 18th greens along with views of the Newport River. This is a special opportunity to maximize the club's million dollar views. You just don't come across property like this.

### **How do you plan on ensuring all levels of play will enjoy playing MCCC?**

Three keys for any renovation is to maximize playability, maintainability and aesthetics. Our first goal is to ensure the course is player friendly for the senior membership. With an average age of membership over 60 we want to make the course more playable off the tee and into the greens. Bunkers will have lower leading edges and will allow easier egress and ingress. This creates a more classic look, much like a Donald Ross design. At the same time this helps with ease of maintenance. Morehead City Country Club in the past utilized 5 sets of tees measuring approximately from 4,000 yards to approximately 6,350. We will have 6 sets of tees measuring from under 4,000 yards up to approximately 6,800 yards. When playing the appropriate set of tees all players from the youth, seniors and scratch players will enjoy the course. The goal of tee placement is for a variety of players who hit tee shots from 100 yards to over 250 to all have the same club when hitting into greens. By incorporating Tifeagle greens the course will experience more consistent green speeds throughout the year. Members can expect greens will roll consistently 11 to 12 on the stimp meter. In accordance we plan to soften some of the contours of the current greens for more pinable areas. Greens will be enlarged to original sizes. Greens in some instances have encroached 7 to 8 feet since being built in 1998. We are confident Morehead City Country Club will be the type of course that will challenge players, but will also be a lot of fun to play.

**Why Tifeagle Bermuda greens?** Bentgrass struggles in warm climates. Tifeagle bermudagrasses are at their peak in the busy season. We have renovated a number of courses with Tifeagle throughout the eastern United States. We understand Morehead City Country Club has been known for superior bentgrass greens. Tifeagle will meet the standard members expect.

**Thoughts on bunker design?** Willy Toms and his staff have been dealt an almost impossible challenge in maintaining bunkers. Bunkers have had raised edges where you can not keep a consistent amount of sand throughout the bunker. The bunkers were retaining water because of poor drainage. The bunkers are now renovated with a superior drainage system provided by Atlantic Installations, a superior bunker floor design and have vastly improved bunker sand. The membership will love the playability and Willy's job in maintaining consistency has been made much easier and much more cost effective.

**You mentioned bunker sand. Can you tell us more?** The sand chosen is comparable to the sand at Augusta National. The mine the sand comes from is 30 miles outside of Augusta, Ga. It's crushed quartz, very consistent, firm and will be much easier to hit from. The chance of fried egg lies in this sand is greatly reduced. This sand is extremely white as you will see in the before and after pictures.

### **Thoughts on the new driving range and practice facility?**

By moving the range the club has the ability to have over an acre of natural turf teeing space. One of the limitations of the current range is the inability to use the grass tee. This will not be a problem moving forward. There will be multiple short game areas. The current chipping area will remain similar, but another short game area has been added by using the current 1st green located on the back of the range. The back of the range will also have an additional tee. The back of the range can be used for those just wanting to get away from the crowd or can be used for clinics. It will be a great area for the high school teams to use while keeping the primary tee for member use. The putting green will be enlarged to 8,000 plus square feet and relocated to be close to the driving range tee and first tee. This will be a state of the art practice facility, one of the best in eastern North Carolina.

### **Members are talking a lot about the new 9th hole and 18th green. However, you speak highly of the new 16th hole.**

As mentioned earlier the 9th and 18th greens open up views as good as you'll find anywhere. But the new 16th hole is going to be a spectacular par 3 with what potentially could be the best view. The hole will be built to maximize panoramic views of the Newport River and future clubhouse. There are not many courses that will be able to match the finish Morehead City Country Club will have with the 16th, 17th & 18th holes. Curtis has spoke very highly of the renovation, specifically 9 & 18. Curtis feels those bookend finishing holes are as good as you'll find anywhere.

**Speaking of Curtis, how has working with Curtis been?** It has been an enjoyable experience getting to know Curtis. His thoughts on shot values for our new holes has added to the design. Relying on his years of playing some of the great courses around the world is a huge asset.

### **What can the membership expect in 2018 with course maturation?**

We will have to continually tweak the course after play has resumed and get feedback from membership as to how the course is playing. The course will require one more summer growing season to get the fairways in the shape the members are accustomed to. Native grass areas will continue to develop over the following year. Normally it takes two full growing seasons to establish native areas.

# Sunday Brunch

**\$3 Mimosas, \$4 Bloody Marys**  
**Brunch Menu 10 to 2**

## Breakfast Options

\$5.50 ~Breakfast Platter- 2 eggs served any style with bacon or sausage, grits or potatoes, toast, coffee or fountain drink

\$5.00~Bacon, Sausage, or Ham Omelet with toast, coffee, or fountain drink

\$6.25~Western, or Garden Omelet with toast, coffee, or fountain drink

\$4.75~Bacon Egg and Cheese Sandwich

\$4.75~Sausage Egg and Cheese Sandwich

\$4.75~Ham Egg and Cheese Sandwich

\$2.75~Half Sandwich from above

\$1.25~Side of grits, one egg, tomatoes, toast

\$1.50~Side of home fries

\$2.25~Plate size Pancake or French Toast

\$2.25~Bacon, Ham, Sausage

## Lunch Options

\$4.00~Grilled Cheese and Chips

\$6.50~Chicken or Steak Philly Sub or Wrap with Chips

\$6.50~Chicken Tenders and Fries Basket

\$6.00~Fried Chicken Sandwich (lettuce, tomato, mayo) Buffalo available

\$6.25~Shrimp Burger with Slaw and Chips

\$6.00~Pub Burger with Chips (lettuce, tomato, onion, mayo)

\$6.50~Grilled Chicken or Chicken Tender Salad

\$6.50~Chef Salad

\$5.00~Chicken Salad, Tuna Salad, Egg Salad, Pimento Cheese, Ham or Turkey Sandwich with Chips

\$1.50~Substitute Fries, Hot Chips, or Onion Rings for

## Kids Meals

\$4.00~Grilled cheese, hot dog, chicken tenders,

all served with choice of chips, fries, or fruit, juice box, and cookies

## Operations Report by Nick Eatmon

The growth of your club over the past few years has been phenomenal. This is an exciting time to be a member as the club is transforming from a golf club to a country club. Your support and patience during this phase of renovation has been tremendous and greatly appreciated. At any point if you have questions with club operations please let me know.

The board of directors and staff came to the realization of the following.

- Course conditions will continue to deteriorate due to time since last renovation. Especially noticeable with greens and bunkers.
- Current clubhouse is serviceable, but is not the clubhouse of the future. This can be said for the pool as well.
- Financially the leaders of the club are responsible for spending money wisely. It has been deemed saving money while paying 39% of profits to tax is irresponsible towards maximizing the clubs potential.
- Interest rates and building prices will continue to rise in the coming years.

MCCC has been a successful club since the early 2000's. However, a gradual loss of membership and the lack of younger families joining the club put the club in a precarious position moving forward. In early 2014 the club dropped to approximately 540 members with average age nearing 65. Granted most clubs would love to have 540 members. However, the club had dropped from 660 members in 2009.

In 2014 a goal was set to increase value through all areas of membership. A number of food & beverage activities were added. In golf operations additional events were added along with \$3 cart fees after 3:00. These simple steps became essentially phase 1 in improvements. These steps saw food and beverage sales double by 2016 while increasing the membership back to 660. Average age of membership dropped on average 1 year for each year from 2014-2016.

Food & beverage grew faster than anyone could of expected, but rounds of golf continued to fall. In fiscal year 2015-2016 rounds of golf fell to just below 28,000 18-hole equivalents. Down over 10,000 rounds from 10 years prior. This was with more members! To increase rounds there needed to be improved playing conditions while maximizing the clubs land and what a piece of land MCCC has!

Priority #1 is to increase the value of everyone's membership. With this in mind I began mapping a plan to take the club into the future towards the later part of 2014. A plan was put into place by looking at national country club trends and realizing our own change in culture. To meet the needs of our current membership and to entice perspective members it became evident the club would need to look into an improved clubhouse and pool facility. At the same time the golf course would need to be the first step in improvements. By rerouting the course the club would have the ability to relocate new facilities in the future.

The hardest part of the project has been taking a course everyone loves, including myself and in some cases making drastic changes. Please take note the goals for the course renovation have been simple. First and foremost we did not want to take the enjoyment of playing the course away. Meaning MCCC's has always had great features which include the course is fun to play, you can play fast and the course lends itself well to walking. Those aspects have not changed. The course will be fun to play for all skill levels with tee lengths of 6,800 yards all the way to less than 4,000 yards. The routing lends itself to continue fast play and to walking. I sincerely hope once you get a chance to play the course you'll sit back and say this is how the course should of always played. In fact I'm confident you'll love the layout!

The new layout allows the club to build a clubhouse between the 9<sup>th</sup> & 18<sup>th</sup> holes while being located on the Newport River. The clubhouse will have additional views of the 8<sup>th</sup>, 16<sup>th</sup> and tee shots on #10. The space provided by the rerouting also allows for parking lot of approximately 200 spaces.

Since the middle of July the clubs membership has grown to 840. Average age of membership is now under 60 years of age! Today the club is as strong as any country club you will find!

FREQUENTLY  
ASKED  
QUESTIONS

**When is projected opening date?** Friday, October 20<sup>th</sup>

**Will we have problems getting tee times?** The club has reached a high of 840 members. There are understandable concerns with the numbers being much higher than at any point in club history. Ideally the club would range between 35,000 and 40,000 18-hole rounds played per year. This would be the same amount of rounds played from 2005 through 2008. As a comparison 2016-2017 the club played 28,000 while reaching a high of 657 members. Out of the 180 new members 146 of the new members were either families under the age of 40 or non-resident members. History has shown these 2 categories play less than 15, 18-hole rounds a year. If history holds true the 180 new members and their guest will play less than 4,000 rounds a year. This would increase rounds to 32,000. It is expected the new course will generate increased rounds, but rounds are still expected to be at a manageable number under 40,000.

## FAQ continued

**How has the renovation gone to this point?** The transformation of the course has been tremendous. Bunkers and green structures are every bit and more of what was expected. With the end of the bermuda grass growing season approaching #1 fairway, parts of #7, #8, #10 & #11 fairways have been seeded with rye to ensure good playing conditions from October through April. These fairways will need warm weather in May and June to completely cover over. Some have expressed concerns with potentially opening too early. Keep in mind when temperatures at night drop below 60 degrees growth for bermuda grass slows or stops. By October 20th average night temperatures drop to 55 degrees. Meaning to not expect more fairway growth until the middle of May. Rye grass will keep sprigged fairways in great shape to that point. In fact during the Masters golf tournament the pros are playing on overseeded rye on top of bermuda fairways. Greens are coming along nicely, but there are concerns with the back portions of #11 along with small areas on #15 and #17. With warm weather all the greens will be excellent condition by October 20th. A number of out of play areas have been seeded with weeping love grass, fescue and or wild flowers. These areas will not be fully grown in by October 20th. Fescue will continue to grow through the winter, but love grass and wild flowers will need another growing season to be in desired condition. To reach optimal conditions the course will need to go through potentially another full growing season.

**What is the status on the new pool?** Original projections forecasted a pool opening last summer. Early on in the project a summer opening became a long shot due to permitting. Permitting pushed the project back to where it was decided to delay opening until spring of 2018. A start date has not been determined, however an ideal start date would be late 2017 or early 2018.

**When will construction of the new clubhouse begin?** A date for beginning the clubhouse has yet to be determined. However, a potential timeframe is becoming more in focus. First step in building the clubhouse is to make sure the clubhouse can be built safely within the club's cash flow. The Board of Directors hired Doug Spear as an outside consultant to run a feasibility study for the clubhouse. Mr. Spear has over 35 years of experience and came to the club highly recommended. His study showed a clubhouse of approximately 15,000 square feet in the same style as shown to the right. Mr. Spear used the club's last 3-year financial statements along with projecting income in the future. Mr. Spear stated the club does not have to gain 1 member or make a single extra dollar off the new clubhouse and the club can pay for the new clubhouse. In his estimation he feels as if the clubhouse will stand on its own with the money brought in from events. He noted Coral Bay and Dunes Club as local example of successful social clubs. Since Mr. Spear began work conducting the feasibility study the club gained 180 new members in a period of 6 weeks. Mr. Spear took notice saying, "In all his years of consulting he has not seen a club or heard of a club anywhere in the nation having such a jump in membership." With Mr. Spear's study in hand President Ron Perry, Soundbank representative Richard McIntyre and myself met with the United States Department of Agriculture and Doug Spear to see where the club would stand in regards to gaining a government backed loan by the USDA. A government-backed loan would allow the club to gain a 30-year loan instead of 20 and would lower interest rates to be prime plus a small percent. The importance in gaining this backing is immense. Gaining a 30-year loan would allow the club to set a depreciation schedule much closer to actual depreciation while keeping monthly payments lower than a standard 20 year business loan. The USDA encouraged the club to move forward with the project by hiring an architect for construction drawings and to gain price for construction. The USDA recommended having these prices in their fiscal year 2017-2018 (October through September). Once prices are secure the club can find their contractor of choice schedule you can expect ground to break. Without hold ups the club could potentially break ground towards the end of 2018.

**What can you tell us about the new clubhouse layout?** Maximizing views while ensuring membership needs is the priority. Conceptually the new clubhouse base level will sit approximately 12 feet above sea level. This is slightly higher than the back mound of the old 18th green. This elevation will be done primarily through landscaping. At this height even the first floor will be looking down on the 9th & 18th greens. The first level will have the pro shop, bar/restaurant, kitchen, men and women's locker room/sitting areas. The second floor conceptually will have the ability to seat 400 in the banquet room. Outdoor spaces will be utilized by having wraparound porches and a roof top area will allow views of 8,9,10,16 & 18.

**Food & beverage is busier than ever, will the club be hiring additional help?** August was the busiest August on record for food & beverage. Notably Wednesday dinners have been tremendous. Staffing changes left the club short-handed until recently. Three great hires have been made in recent months. Additionally Jenn is speaking with potential hires. Food & beverage is in good hands moving forward. A number of events will be held from here out and we are asking you to sign up for events as soon as possible. This includes Wednesday night dinners. With increased activity the club has a reservation system and by walking in you are taking the chance of meals being sold out.

**Will the new pool have lifeguards and will food and drinks be served at the pool?** We plan on having pool attendants/lifeguards available during prime hours. Those hours are yet to be determined, but an example will be 10 to 8. Servers will be available working the pool bar. Having full service pool areas is a new aspect for the club. The new pool area will be the best in Carteret County, expect the unexpected! There will be a number of exciting events for the entire family! What better place will there be to hang out in Morehead City? Relax with seating in the pool or by the bar. Watch your favorite sporting event at the outside bar or simply watch golfers on the new par 3 9th hole. Which will arguably be the most scenic and best par 3's in the state! Lastly you will be able to enjoy scenic sunsets on the Newport River.

**Will there be lessons/clinics for juniors, women or beginners in the near future?** We're jumping head first into an exciting new program called Operation 36. Operation 36 is perfect for juniors, women and beginners. Operation 36 is designed to track performance of all levels while giving those players achievable goals. More information on Operation 36 can be found on the following pages.

## Junior Academy

AGES 5-15

## PROGRESSING JUNIORS TOWARDS PAR OR BETTER ON AND OFF THE COURSE

The Morehead City Country Club Junior Academy uses the Operation 36® framework to structure the program. It consists of Coaching, Playing, and Training programs and is designed to teach golfers to play the game from a hole out perspective. Each golfer will be issued a profile in the Operation 36® Mobile App to track progress through a 6 level curriculum that is designed to set appropriate objectives and challenge each student towards shooting par or better (score of 36) for 9 holes.

## ACADEMY CLASSES

### LEARN THE GAME

Juniors will learn the game in a weekly group class where our coaches will progress students through the 6 level Operation 36® curriculum.

## OPERATION 36® MATCHES

### TEST YOUR SKILLS

The Operation 36® Matches challenge golfers to shoot the score of 36 for 9 holes from 6 different yardage divisions on the course.

## SUPERVISED PRACTICE

### TEST YOUR SKILLS

Golfers can accelerate skill development by training alongside a coach who sets up a structured and efficient practice session.

Thursdays  
4:00-5:00 PM

Explore the dates in your juniors age group and contact coach for availability. This will be the date and time your junior attends each week throughout the entire semester and works through the Operation 36® Curriculum.

## OPERATION 36® MATCHES

The Operation 36® Matches provide a great experience for juniors to challenge themselves and test their skills on the course. Players will begin playing 25 yards from the green. Goal is to shoot even par 36 for nine holes. Matches will be played Sunday afternoons.

## SUPERVISED PRACTICE

8:1 Student to Coach

Supervised Practice runs weekly for the entire semester

AGES 5-10

Saturdays  
10:00-11:00

AGES 10-13

Saturdays  
11:00-12:00

Bringing the grille atmosphere to the ballroom!

With over crowding in the grille the club has decided to add multiple televisions to the ballroom.

Additionally a video game console will be brought in.

## Golf Course Maintenance ~ Willy Toms

The Golf Maintenance staff is excited about opening the course very soon. Our practice facilities are open and in good shape. We will be overseeded the driving range tee with ryegrass at the beginning of October (this means we will have to keep it wet to germinate the seed for about 10 days). The greens on the course are coming along nicely and will be in good shape for opening. The fairways that have been sprigged are still thin, so to get a better playing surface we have overseeded these areas with ryegrass. It may take another growing season for these sprigged fairways and native areas to be completely grown in. The bunkers are in great shape, Randy's crew softened the lips, grassed the faces, added drainage and replaced all the sand. With several eye popping new holes added and great views of the Newport River, we are all excited to see everyone in a few weeks.

Country Club run is working to open up it's final section. This is your chance to live on the golf course. The picture shows a diagram of lots and where they are located in relation to the golf course. Lots are available on the 18<sup>th</sup> fairway and on the water. Don't let this opportunity pass you by! For more information contact Nick Eatmon at 252-342-0951 or email Nick at [moreheadcitycountryclub@gmail.com](mailto:moreheadcitycountryclub@gmail.com)
